

Dear Sir,

Greetings of the day !

Due to Lockdown most of Institutes and Vendors were not able to receive our regular communications, we would like to inform you that we have been remote working even during lockdown.

Now our offices are fully operational and we have all our **250+ Journals ( April / June) 2020 Print & Online Issues ready for dispatch**. Those who have placed their orders to different **Vendors and have still not received their Journals**, should immediately contact their vendors to get the current status of their Journals.

We are sending all Journals through Registered Indian Post which is trackable , but due to lockdown a post which normally should reach within 3-7 days is currently taking 20-30 days in delivery. So, you are requested to take necessary action in order to ensure that your orders reach you on time.

Currently UGC and AICTE are also conducting **virtual Inspection/ assessment of Institutions** for next academic session, we are ready to provide you both **Printed and Online Access of Year 2020** and previous year Journals too on time.

CELNET can also provide eLearning tools and content to Institutions in getting them **eLearning ready**, we can provide ready infrastructure and access to various **short and long term courses using LMS** for all your Graduate and Post Graduate Students. Please ask for more details how we can assist you in reaching out to your students through eLearning.

Thanks & Regards

*Rahul Kumar*
