STM (Scientific, Technical and Medical) Domains

A cost effective access to the quality research findings

No institution (special reference to S & T) is complete without an adequate library and no Library is complete without subscriptions to relevant journals (major source of nascent/ primary information)

India's first online STM journals platform

- Ambitious initiative of the *Consortium e-Learning Network Private Ltd. New Delhi, India (CELNET)*
- Meant to facilitate a cost effective access to the quality research findings in the Scientific, Technical and Medical Domains through the publication of online quality scholarly journals
- Employs *Open Journal Systems (OJS)* - a journal management and publishing system, developed by the *Public Knowledge Project*
- CELNET with its improved infrastructure and with rich experience of successful publication of 'NanoTrends: A Journal of Nanotechnology and Its Applications' since year 2006, (Covered by *Indian Science Abstracts (ISA)*, NISCAIR, CSIR, India the *Chemical Abstracts Services (CAS)*, American Chemical Society (ACS), USA) now embarks upon the well sought after area of **STM Journals**, with special attention to the developing nations.
- Envisages online publication of around 40 learned journals. The Journals are in various stages of finalization. We plan to launch these journals in the year 2011.
- Selects the domains that represent a bouquet of journals that fall under STM umbrella.
